

ADDITIONAL RESOURCES FOR AUTHORS

Writing a technical paper and passing the peer review can be a daunting task. Here are some resources that may help you in your endeavors:

Virtual Library

A great source for your research. It contains links to over 6,500 technical articles (and recordings of past presentations) published by AAACE for you to get ideas and gain knowledge to support your paper. More information here: <https://web.aacei.org/resources/downloads>

Cost Engineering Terminology

A recommended practice of AAACE, 10S-90 *Cost Engineering Terminology* is an industry consensus document of thousands of terms and definitions used in the field. More information here: <https://web.aacei.org/resources/cost-engineering-terminology>

AAACE Recommended Practices

Be sure to familiarize yourself with AAACE's recommended practices (RPs). In general, you want to be in alignment with these guidelines. More information here: <https://web.aacei.org/resources/recommended-practices>

AAACE Uniset

If your paper deals with forensic schedule analysis, you may want to have a look at the AAACE Uniset. The Uniset is designed to serve as a control set for testing of forensic schedule analysis methods, for the comparison of the results of new methods or software packages, for use in developing new technical papers, and for the training and education of new analysts. More information here: <https://www.pathlms.com/aace/courses/54058>

Communities

Stuck or need input from other professionals? Check out our online communities. More information here: <https://communities.aacei.org/home>

How to Write a Technical Paper

You may want to watch this (free) presentation on how to write a technical paper. More information here: https://www.pathlms.com/aace/courses/3164/video_presentations/274304

Mentoring Program

Would you like to have assistance in writing your paper? Check out our mentoring program. More information here: <https://careers.aacei.org/eMentor/>

For templates, author guidelines, etc., visit:

<https://web.aacei.org/conferences-events/events/conference-expo-information/speakers>

You may want to consider using software such as Grammarly to assist you in writing your paper. More information here: <https://www.grammarly.com/> (This does not imply an endorsement by AAACE.)
